Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

opportunities

SAYS

- I want to learn new skills and improve my career.
- It is difficult to track my progress.
- I need a simple and easy platform and manage my profile and projects.

THINKS

- Will this plalfo[rm be easy to use?
- Will it help me get better opportunities?
- I hope my skills and projects are presented well to others.

PERSONA

NAME

Janani S(student)

FEELS
